

# CANADA'S *Atlantic* edge

The Atlantic Provinces have a long tradition within the worldwide mining ecosystem. Our companies have extensive experience, established global supply chains, vast capabilities, and offer unique solutions to global mining challenges.

Atlantic Canada companies supply the entire mining spectrum - from early exploration and development, to mine design and construction, commissioning and training, production, processing, refining, closure and rehabilitation.

**Atlantic Canada**  
**Your source for mining products and services.**
